WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

STATEMENT IN SUPPORT OF PETITION FOR REVIVAL FOR UNINTENTIONAL ABANDONMENT UNDER 37 CFR 1.137(b)

This is in response to the DECISION , dated August 11, 2009 and received 3 September 2009.

The decision dismissed the applicant's petition for withdrawal of the holding of abandonment based on non-receipt of the pending Office Action. The grounds of the dismissal were, inter alia, that the records from the undersigned's electronic docket program are not a "Master Docket" under the meaning of MPEP 711.03. The Petitions Attorney notes, however, that the MPEP provides, in the alternative, that if the practitioner does not maintain a "Master Docket" that other evidence may be submitted.

The undersigned believes that such evidence could readily be provided satisfying the provisions of the MPEP. The records previously provided, while perhaps not a "Master Docket", are a true record generated by the docket program showing all received correspondence for the preceding three months in all US cases. Other evidence in the form of the case file jacket, the docket record for the particular matter, and the case reminder system are available that are believed would satisfy this provision.

However, as the Petition Office points out, the address associated with the practitioner's customer number contained typographical errors (now corrected), that would of themselves justify a dismissal of the Petition. The undersigned was unaware of those errors until pointed out in the present decision. The undersigned is therefore submitting the current petition for revival for unintentional abandonment, and states that the entire delay in responding was unintentional. The undersigned believed until receipt of the decision that circumstances supporting a grantable petition for withdrawal existed. A reply to the outstanding office action accompanies this petition.

Respectfully submitted,
